If you're the officer of an organization and you don't know how to use your organization's constitution, this workshop is for you. A constitution provides each member with the purpose of the organization, the foundation for building structure, and clear guidelines for handling every aspect of an organization; officer responsibilities, conflict resolution, meeting expectations, finances, accountability and more. In this workshop, you will have the opportunity to review your organization's constitution and identify important changes you need to implement in your organization.

ACHIEVING LEADERSHIP SUCCESS THROUGH DIVERSITY & INCLUSION

Speaker: Dr. John Bello-Ogunu McDonald Gym

The general consensus in higher education is that one of the goals of any academic institution in America is to prepare its graduates to become holistically educated, responsible global citizens and leaders, who can function productively, effectively, and successfully in today's "Global Village" of interconnected cultures and interdependent economies. This dialogue-centered workshop will explore the role of Diversity and Inclusion in preparing today's student leaders to become tomorrow's effective and successful leaders in our world of many "colors." Through civil—(courteous)—and constructive dialogue, participants will be able to explore the various dimensions of diversity, the importance of intercultural competency and purposeful inclusive leadership style in achieving success as leaders in today's complex, volatile, and challenging multicultural world.

BREAKOUT SESSIONS II

THE POWER OF PERSONALITIES/ WHOLEHEARTED LEADERSHIP

Speaker: Rebekah Maxwell McDonald Gym

Have you ever sat through a boring meeting and wondered why you had to be there? Don't let that happen to you and your organization! Learn how to lead successful meetings with agendas, actions items, and engage your members in discussion. We will look at what usually happens during an organization meeting and how to handle different communication styles. Also, we will cover what you can do before a meeting even begins to ensure an efficient use of your time and energy. Take these skills with you into your career and future.

4 WAYS TO INCREASE ENGAGEMENT AND REDUCE APATHY

Lamar University values participation in community affairs and seeks to cultivate civic responsibility. Participating in community service and service-learning is a great way to give back to the community. Research shows that civic engagement not only helps others, but also it helps students develop leadership skills as responsible citizens. Civic engagement also makes connections between classroom learning and real-world experience. This workshop is designed to discuss organizational benefits of student organizations. The goal of the workshop is to inspire students to involve in civic engagements, understand the importance and benefits of community service..

The act of finding, targeting, and obtaining new members will always be among the top priorities of any organization. In this session, we'll look at strategies for improving member retention as we discuss effective methods to help retain member presence and engage their unique talents to assist the common goal.
